TriSYS® FRAME SYSTEM GRAINED FRAME LITE SYSTEM

If you were to create a frame system from scratch, what would it look like and what features would offer you the most value? Heavier than standard frames with no screw plugs, best gaskets, no ooze, and the best paint adhesion. It's now available, the Trisys Frame from ODL, the beautiful decorative glasslite company.

Trisys Frames now come standard in several door and sidelite models in decorative glass and are available as an upgradable option in internal muntins and Low E door and sidelite designs.

Fashion with Function

Classic crown moulding with a handcrafted appeal

No Screw Hole Plugs

Cover frame snaps securely to the inner frame using innovative clip system

Ease of Assembly

Designed to ensure rapid and accurate alignment of the outer and inner frames

Paint or Stain

Requires no prep, no adhesion promoter and no special primers. Achieves the highest rating of 5 during cross hatch adhesion testing

Material Performance

Designed and tested to withstand extreme temperatures, safe for storm door applications. Optimized rib structure improves frame stiffness and design pressure performance

Dry Glaze Seal

Features a foam gasket system that is air and watertight. Dry glaze seal allows for easy field replacement and reuse of system components
